
Submitting assignments via GitHub

Urban Data Science

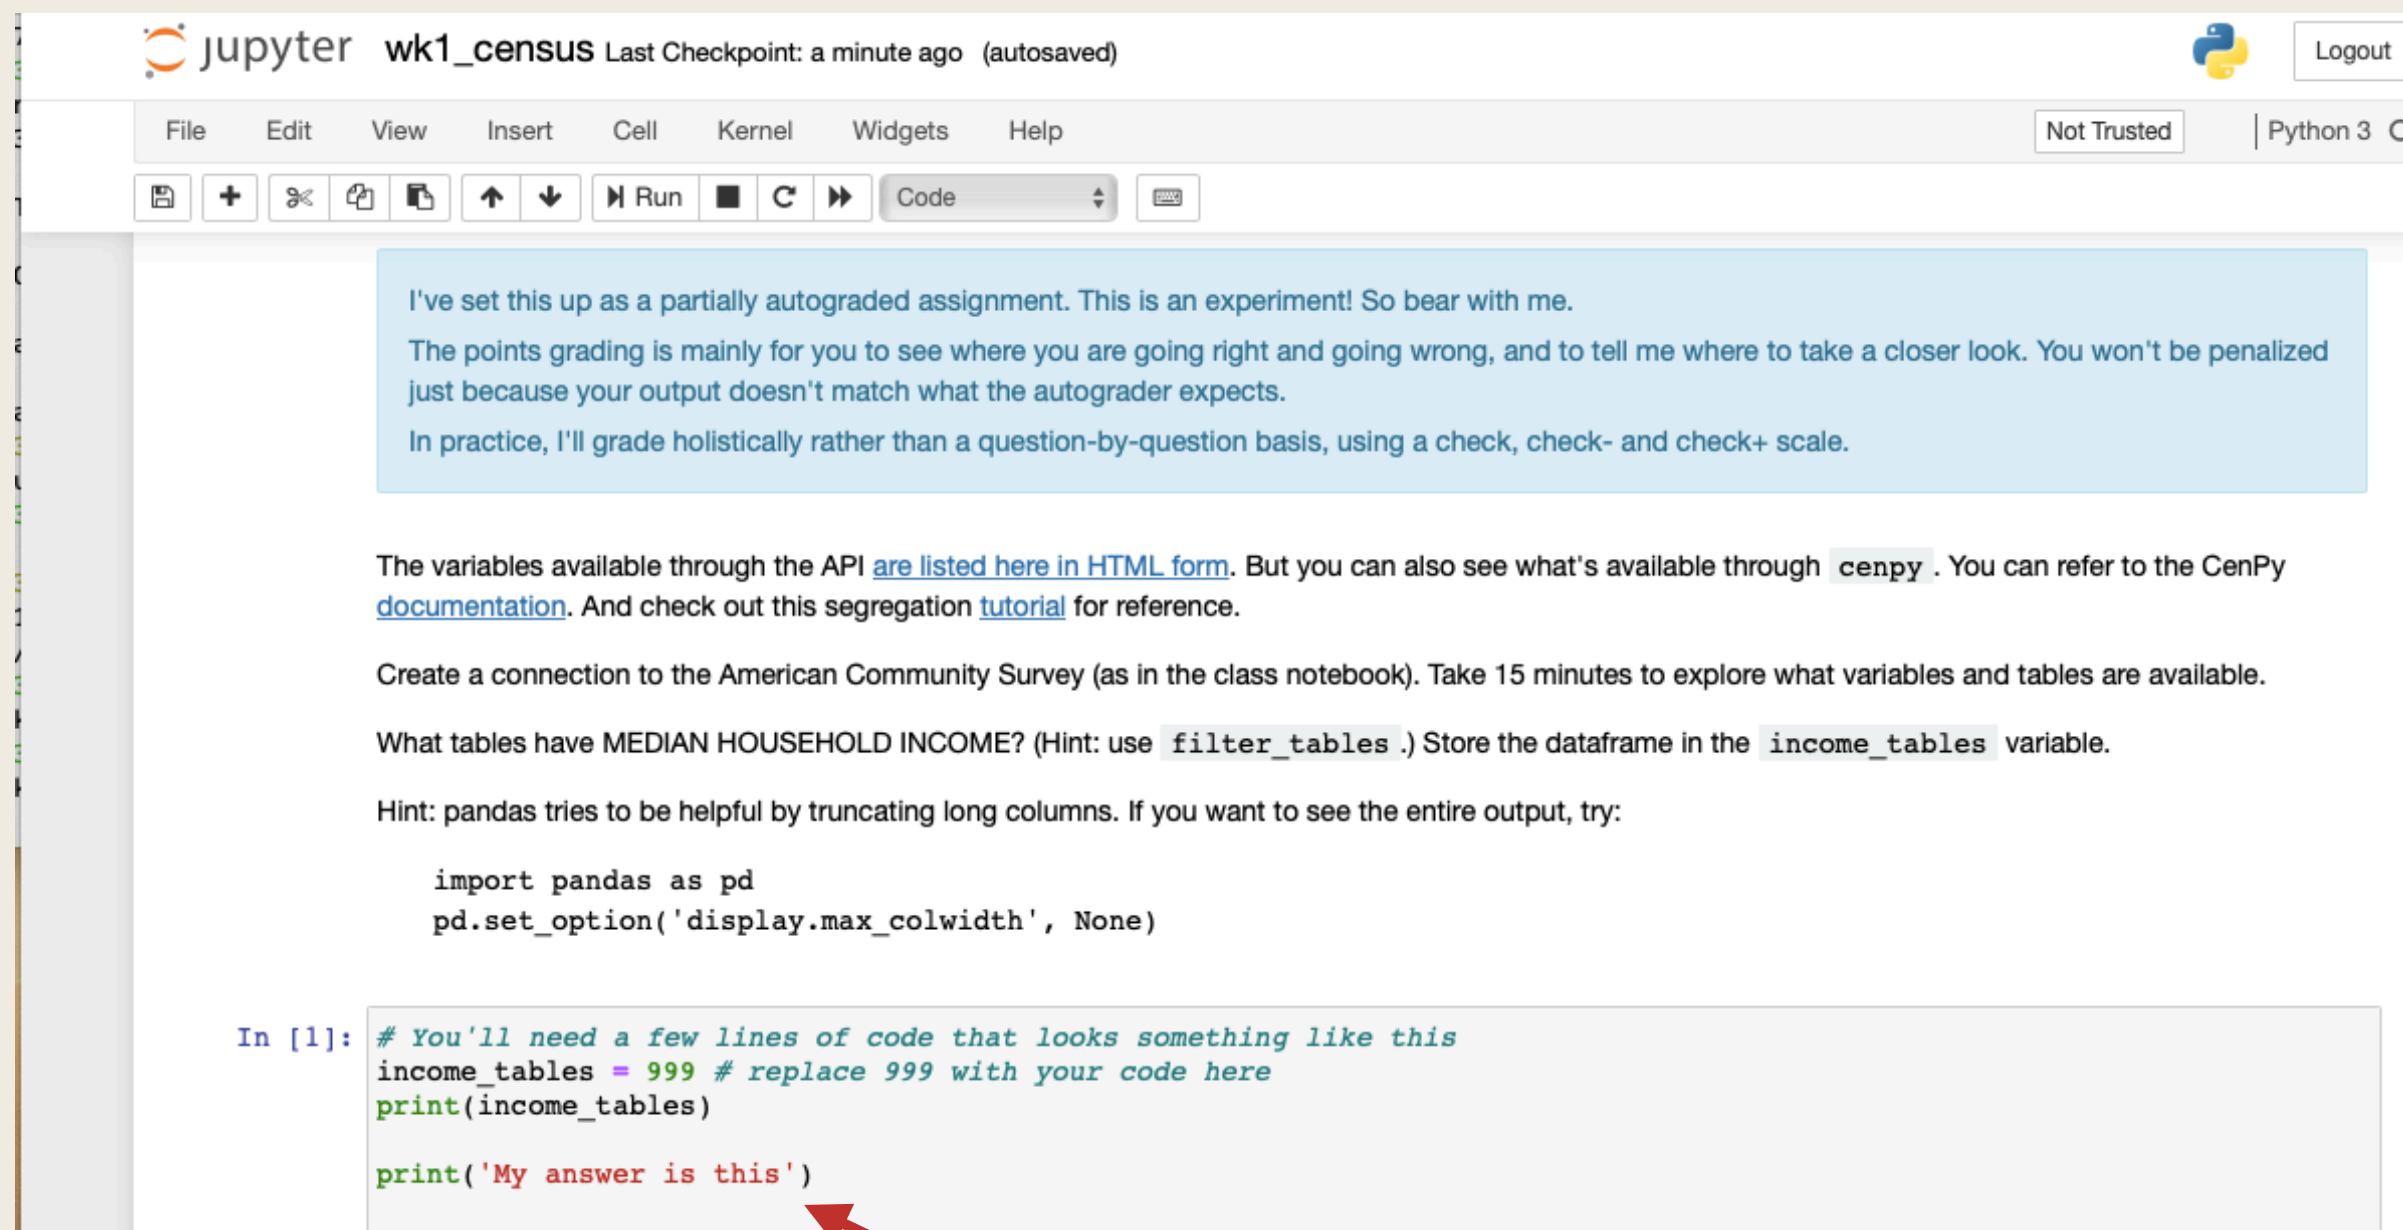

How to submit

1. Accept the assignment. You'll need to grant access to your GitHub credentials

How to submit

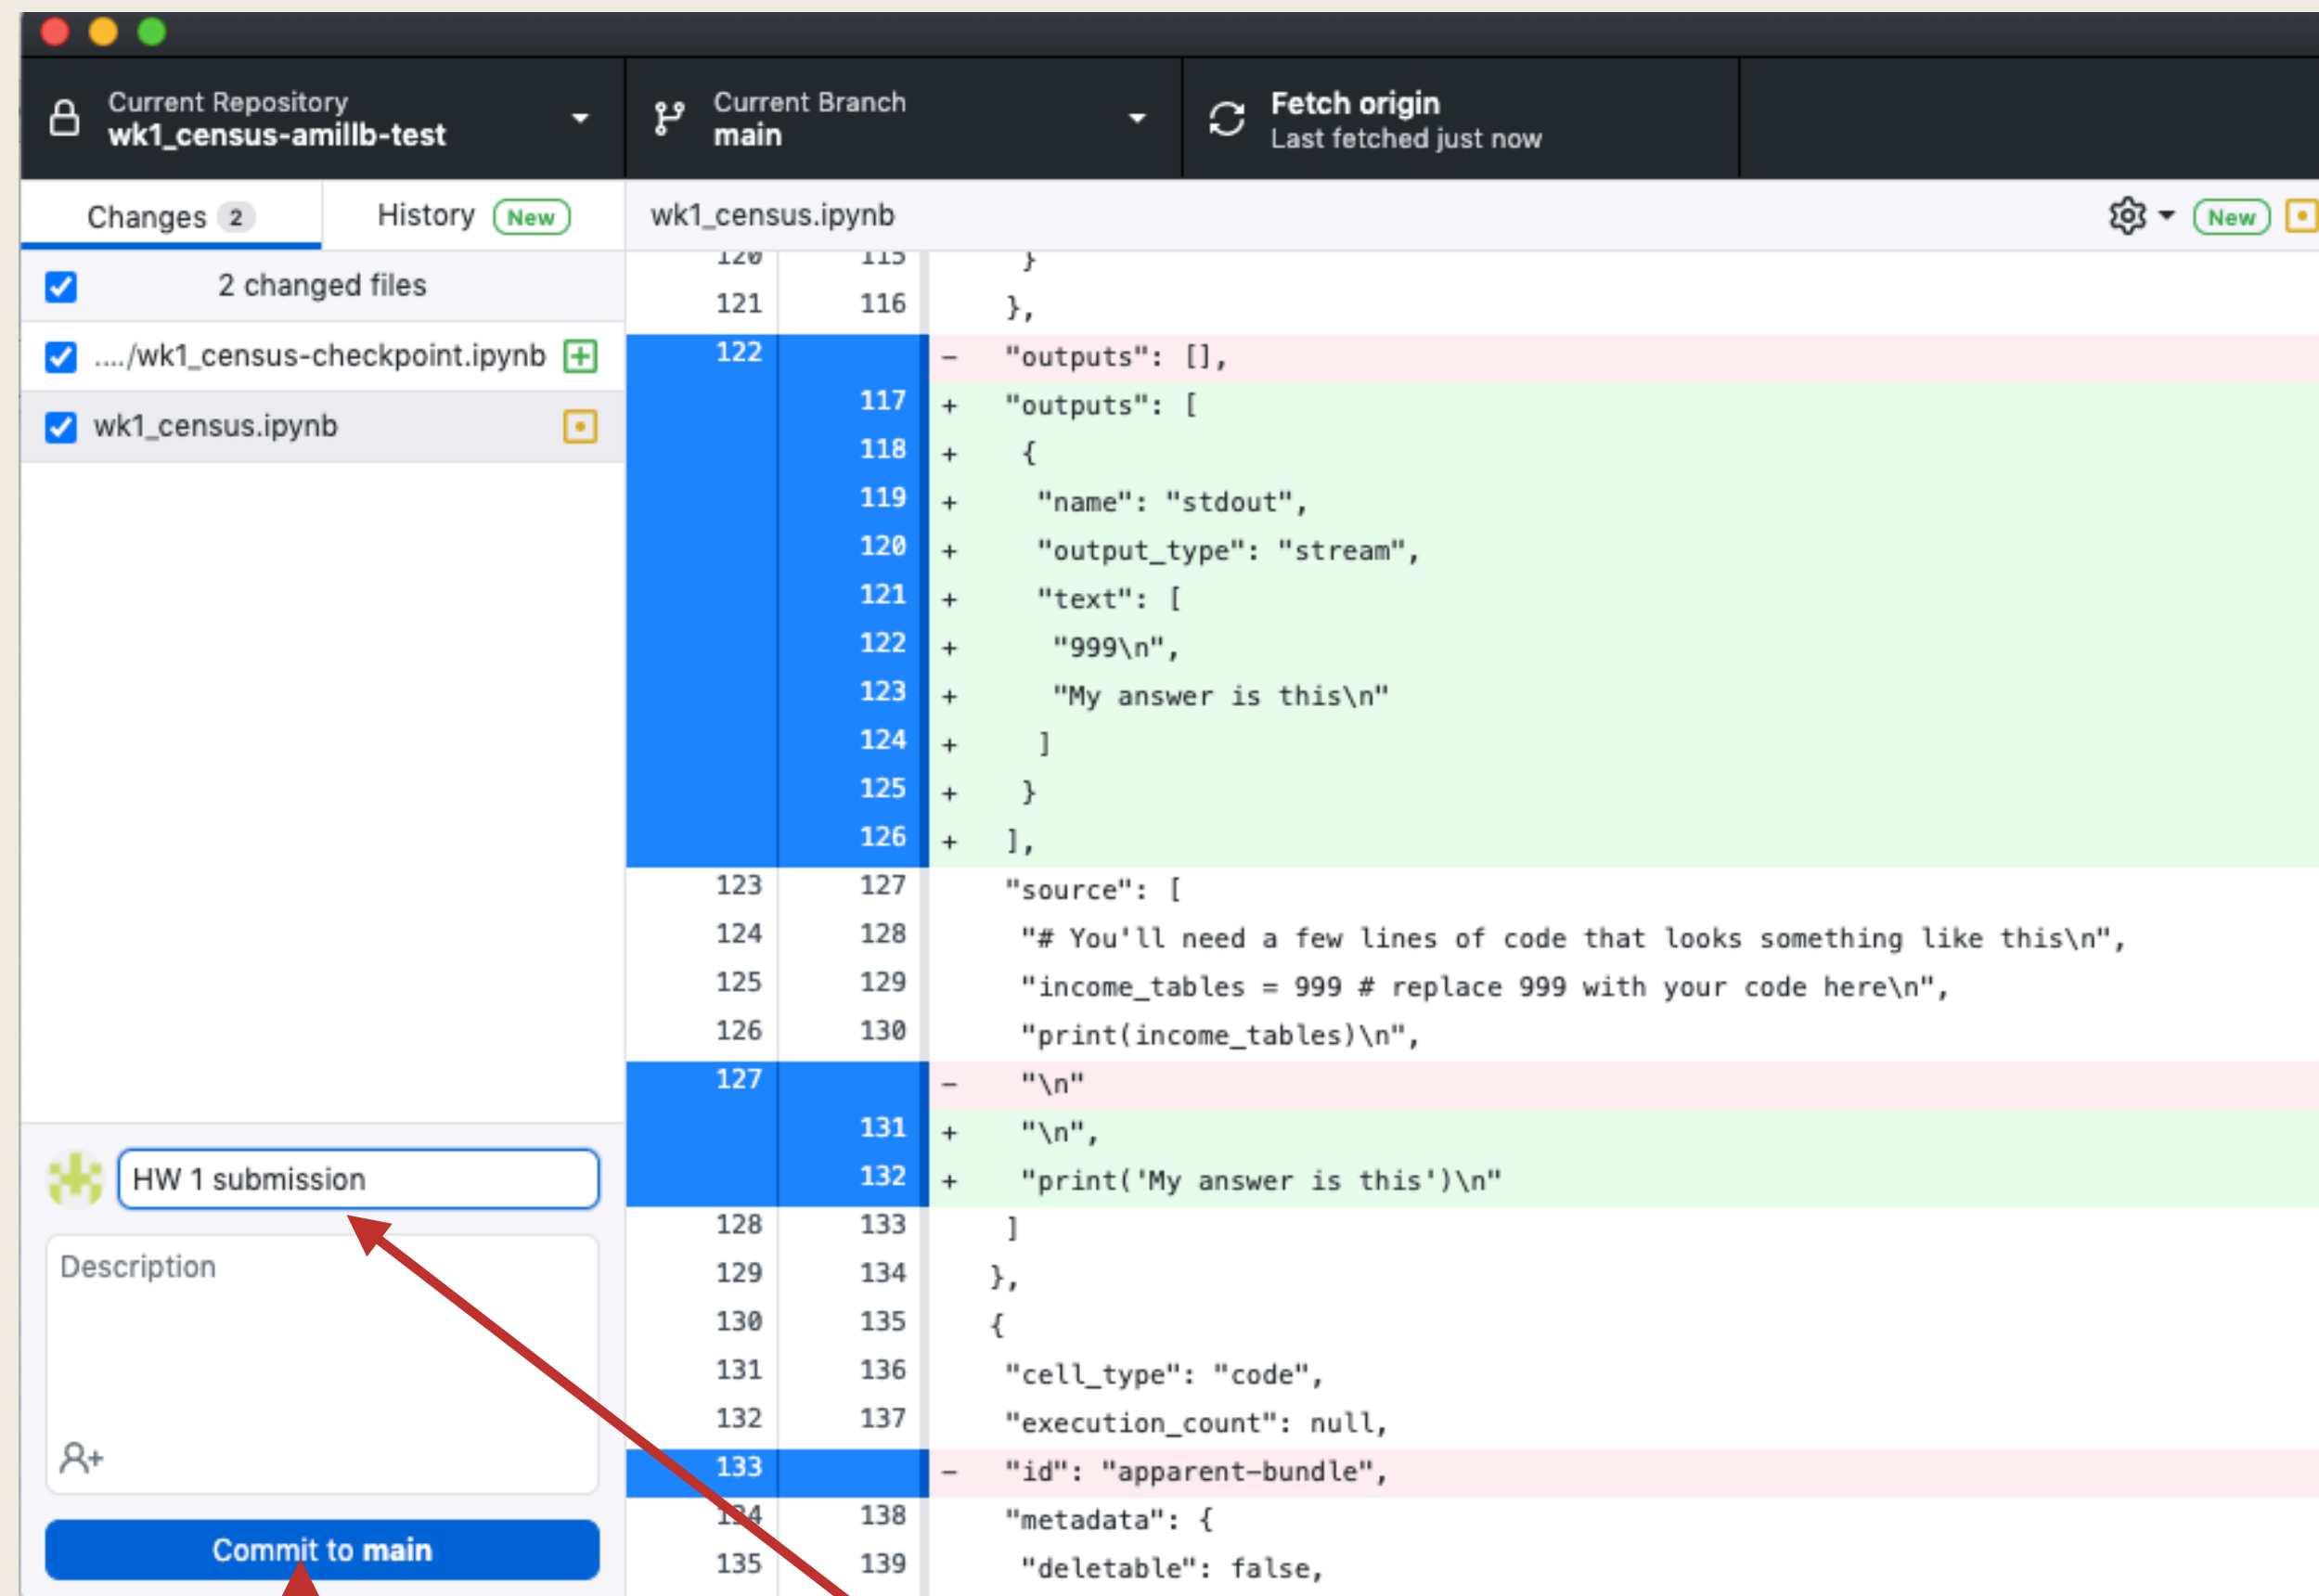

1. Accept the assignment
2. Open up GitHub Desktop. Under Clone a Repository, you should see your homework repository.
 - Choose where to save it by editing "Local Path"
 - Click on Clone

This is the only thing I changed

How to submit

1. Accept the assignment
2. Open up GitHub Desktop. Under Clone a Repository, you should see your homework repository.
 - Choose where to save it by editing "Local Path"
 - Click on Clone
3. Open the .ipynb file in Jupyter Notebook. Do the homework. Save it.

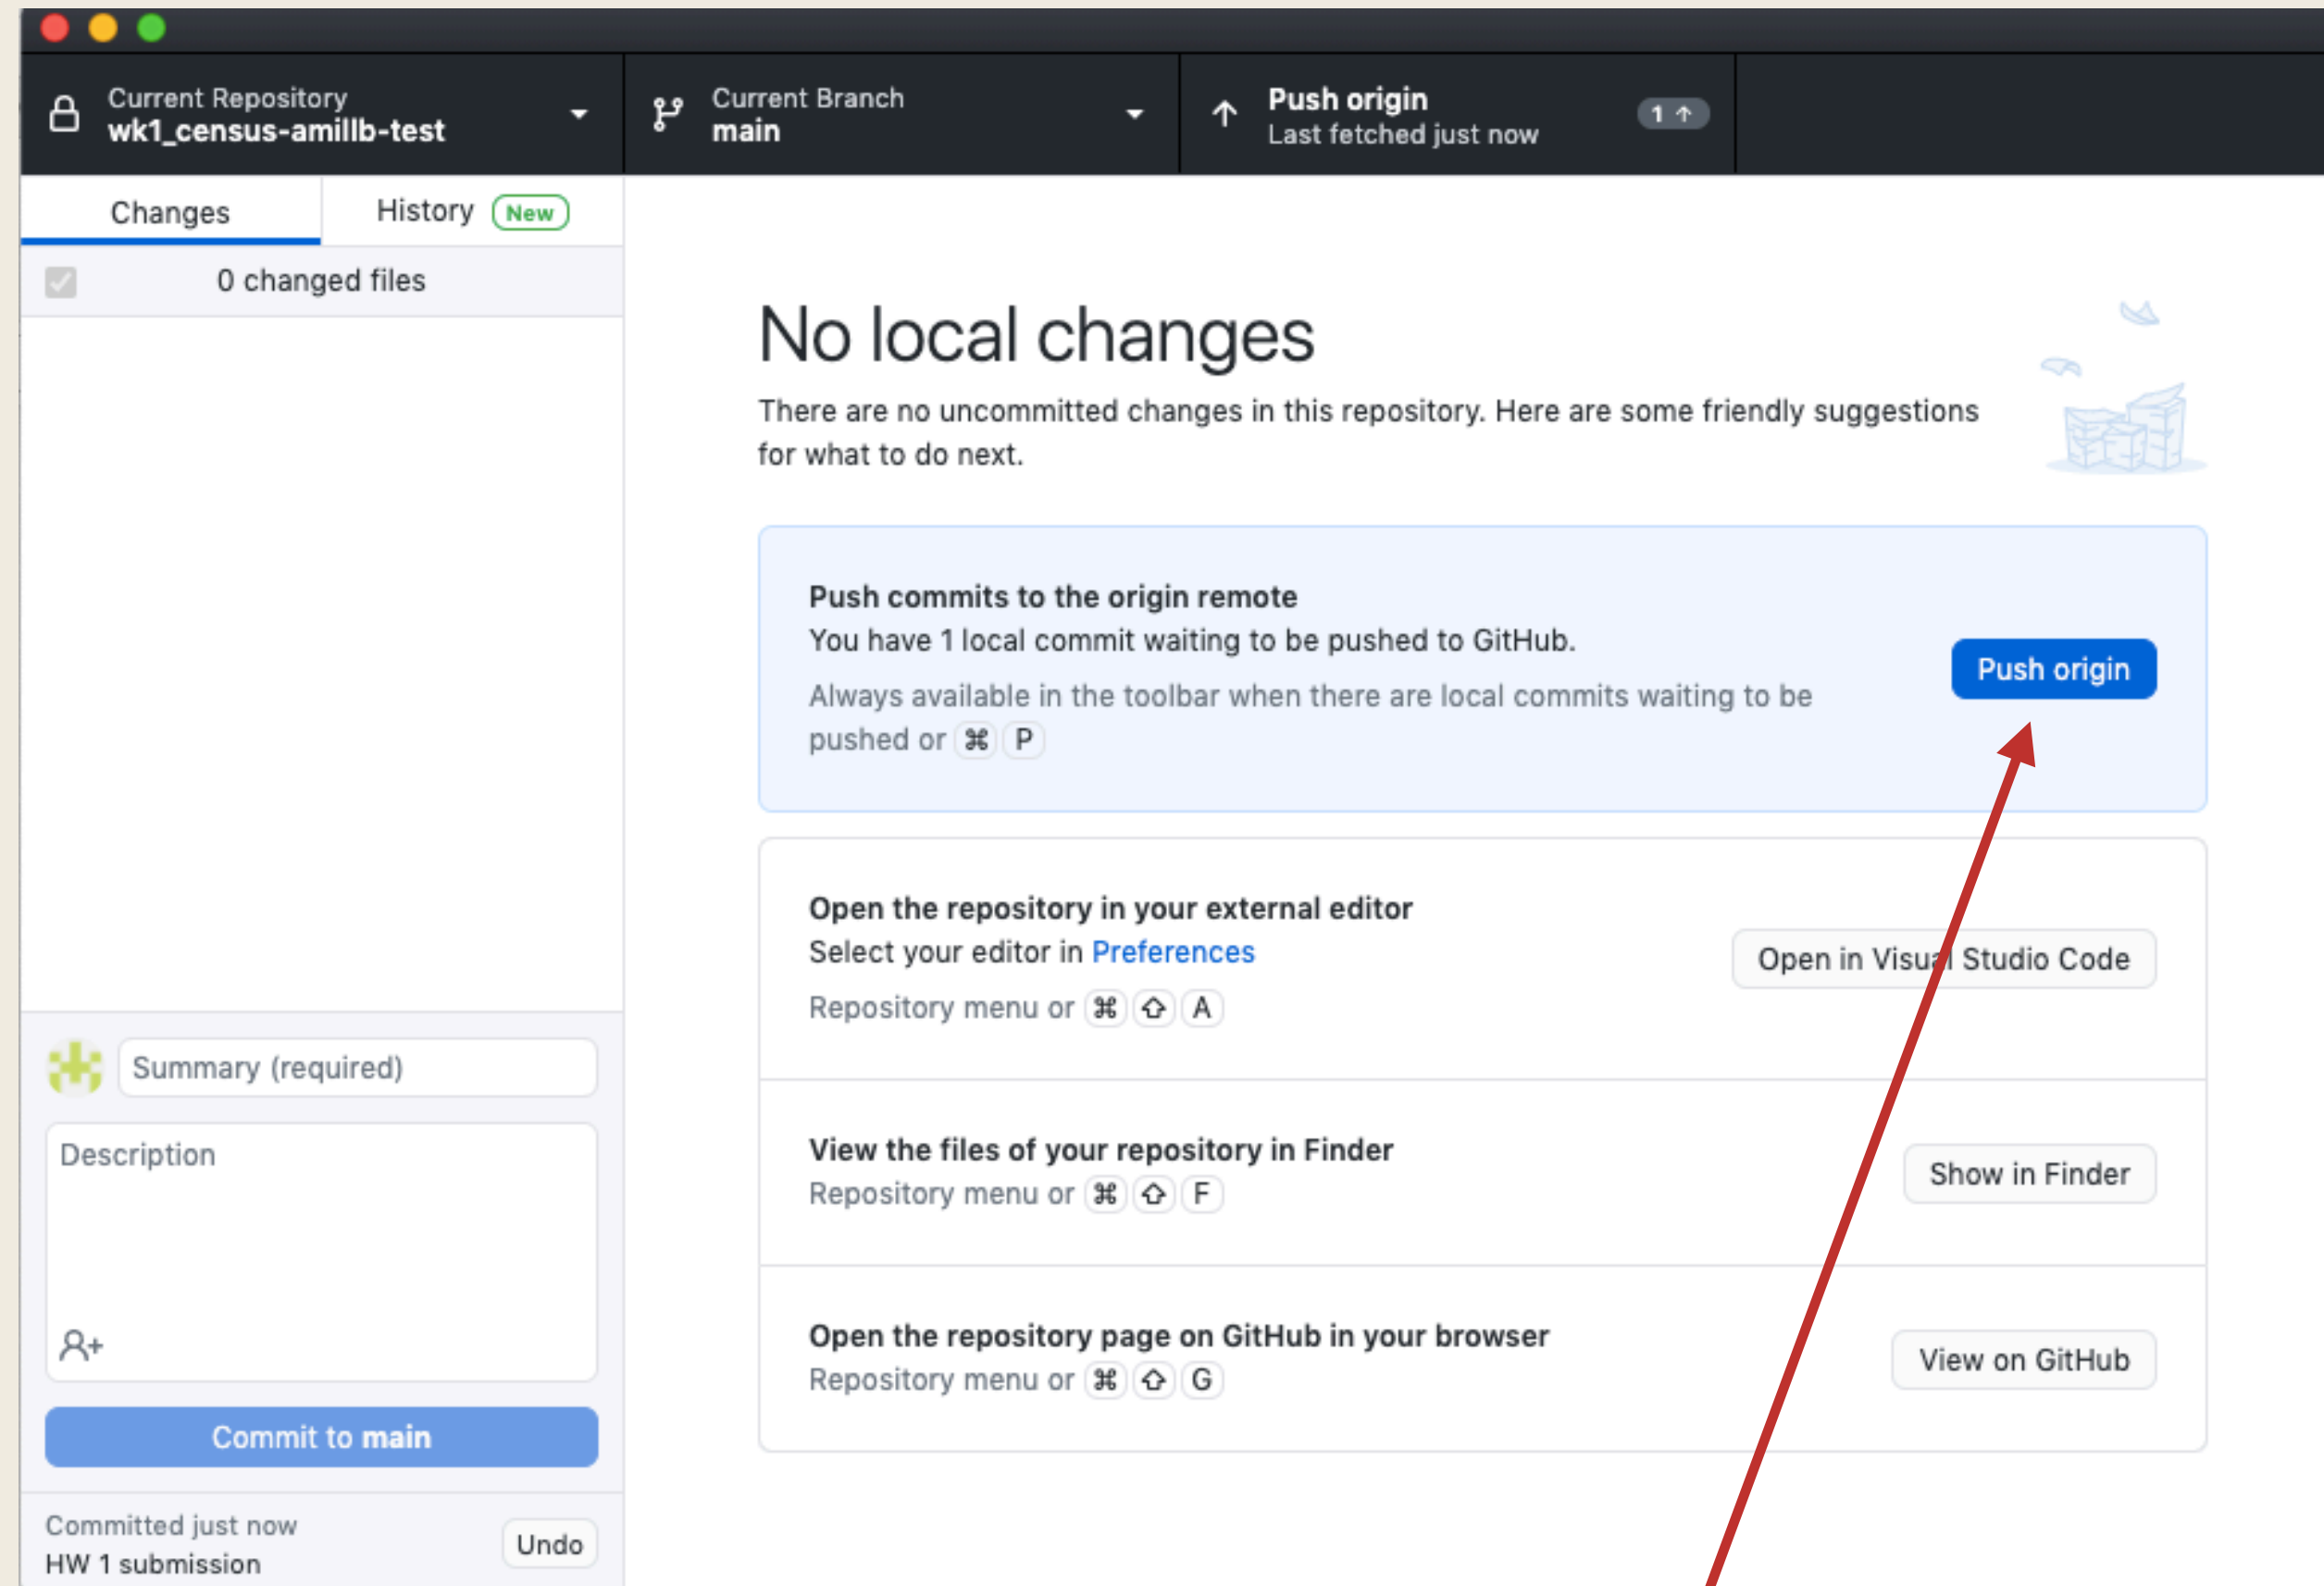

Then commit

Type your summary here

How to submit

1. Accept the assignment
2. Open up GitHub Desktop. Under Clone a Repository, you should see your homework repository.
 - Choose where to save it by editing "Local Path"
 - Click on Clone
3. Open the .ipynb file in Jupyter Notebook. Do the homework. Save it.
4. Go back to GitHub Desktop. Your changes will be highlighted. Type a brief summary. Click "Commit to main."

Push

How to submit

Finally, push your commit to the cloud before the deadline.
